Pilot by Knoll

Designed by Edward Barber and Jay Osgerby, Pilot by Knoll is an innovative swivel lounge chair that marries visual and material lightness with exceptional comfort. The unique upholstery substructure provides flexibility to the seat and a refined silhouette for an essential, timeless design. It is available in a range of fabric and leather upholstery, with

a high or low back, with arms or armless. Pilot by Knoll embodies refinement, comfort, and extraordinary craftsmanship. Meticulously designed stitch details feature open parallel double side seaming for added dimension. By varying the fabric or finishes, the chair can be transformed to fit a variety of spaces.

Edward Barber & Jay Osgerby

Internationally acclaimed designers Edward Barber and Jay Osgerby founded their studio in 1996 after graduating with Master's degrees in Architecture from the Royal College of Art in London. Barber and Osgerby's Universal Design Studio is one of the world's most

innovative creative design consultancies, working in architecture, interiors, and exhibition design. Knoll and the British design team also created the Barber Osgerby Lounge Collection and the Piton™ Table and Stool Collection.
